DIAMOND DRILL EXPERT

Returned Last Evening From a Trip to the Urton Lake and the Dam Site.

G. A. Hammond the Diamond Drill Expert who has been here for several weeks returned last evening at 5 o'clock from a trip to Urton Lake and the dam site above Ft. Sumner. He was accompanied by Assistant Engineer Hurd and they have been absent for six days. They made the trip with two mules and traveled about 200 miles. The object of the trip was for Mr.

Hammond to investigate the site of the proposed reservoir and the dam site. He was highly impressed and is of the opinion that it will be an easy proposition to establish the reservoir. The Diamond Drill outfit has been ordered from New York and as soon as the machinery arrives Mr. Hammond will make test borings for foundations at site of the proposed reservoir and the dam site, above Ft. Sumner.

The machinery will arrive here about March 1st and Mr. Hammond thinks he will finish the boring by May 15th. Mr. Hammond's home is at Ossining, New York, and he was sent here from that city, and he will be at the Grand Central until the machinery arrives unless he is ordered to report elsewhere by the government.

Herbert J. Hagerman Returns.

Herbert J. Hagerman has returned from his extended trip to Eastern cities. He left about January 1st and has been in New York City, Philadelphia, Baltimore and Washington. Mr. Hagerman saw Delegate Rodey in Washington, and Mr. Rodey told him that he had given up all hope for separate statehood, and was willing for the two territories, New Mexico and Arizona, to be received into the Union as one state. Mr. Hagerman is of the opinion that New Mexico will never be received into the Union as a separate state, and this conclusion brings him to point of being willing to submit to joint statehood. He was informed by the RECORD man that the RECORD was more optimistic and was violently opposed to joint statehood, and believed New Mexico would eventually receive her rights and make one of the most glorious states in the Union.
